SKILLS

- Swift, SwiftUI, UIKit, SnapKit
- Combine, Auto Layout, Storyboards
- MVC, MVVM, Clean Architecture
- REST API, JSON, URLSession
- Core Data, Realm, Firebase, Firestore
- Git, GitHub, Bitbucket, GitLab
- CI/CD, Xcode, Instruments, CocoaPods
- Unit Testing, XCTest
- Push Notifications, Deep Linking, Analytics
- Memory Management, Performance Optimization
- Agile, Scrum, Jira, Confluence

PROFESSIONAL SUMMARY

Results-driven Senior iOS Developer with 4+ years of experience in designing, developing, and deploying high-performance mobile applications. Adept at building user-centric solutions and integrating RESTful APIs. Strong expertise in modern architectures and state-of-the-art frameworks to ensure scalable and maintainable code. Experienced in collaborating within Agile teams, conducting code reviews, and mentoring peers to elevate overall code quality. Proven track record of delivering complex features on time, leveraging CI/CD pipelines, and successfully publishing and maintaining multiple applications on the App Store.

WORK EXPERIENCE

Danya Solutions - Trucker Path Dec 2022 – Present
iOS Developer

- Designed and developed high-performance iOS applications using Swift, SwiftUI, and UIKit, delivering user-friendly and scalable solutions.
- Develop new technologies to improve development efficiency and maintain high code quality.
- Collaborated with product managers, designers, and QA teams in Agile environments to deliver features on time and within scope.
- Contributed to application architecture design, conducted peer code reviews, and implemented best practices to ensure maintainability and scalability.

Acclivousbyte Sep 2021 – Nov 2022
iOS Developer

- Began as an iOS Development Intern, gained foundational skills in Swift, Xcode, and iOS frameworks, and progressed to a full-time iOS Developer role. Expanded advanced iOS applications,
- implementing new features and enhancing UI/UX. Identified, diagnosed, and resolved bugs and performance issues, improving
- application stability and user satisfaction.

EDUCATION

BS Computer Science Sep 2017 – Aug 2021
University of Gujrat

ICS (ComputerScience) Jul 2015 – Jun 2017
Govt. Civil LinesCollege,Lahore

Matriculation Mar 2013 – Feb 2015
Al Basit ModelHighSchool

Projects

Ryvato

<https://apps.apple.com/ae/app/ryvato/id6744975617>

- *Planned forteam's striving for success across any industry*
- *Offers powerful features to streamline projects and ensure regulatory compliance*
- *Provides Timeline Analysis to monitor project progress and deadlines*
- *Facilitates seamless team collaboration to boost productivity and alignment*

TruckerPath

<https://apps.apple.com/us/app/truckerpath-truck-gps-maps/id782746890>

- *EnhancedGPS navigationwithroutingtailored totruck dimensions (height, width, and weight).*
- *Implemented fuel deal and route optimization features for cost-effective trip planning.*
- *Integrated real-time truck stop data with driver reviews, ratings, and amenities.*

Truckloads

<https://apps.apple.com/us/app/truckloads-trucker-load-board/id1007287939>

- *Builtcore features enabling truckersto findand book loads efficiently.*
- *Developed search filters based on load type, location, and payment preferences.*
- *Enhanced user experience for carriers, brokers, and shippers with smooth load-matching workflows.*
- *Leveraged REST APIs and Firebase for secure, scalable, and real-time data handling.*

GoAgent

<https://apps.apple.com/us/app/goagent-real-estate/id1549430692>

- *Planned an d developed room booking and management features to streamline scheduling.*
- *Implemented task tracking for cleaning and housekeeping operations to ensure timely service.*
- *Added notifications and alerts for scheduled room services and real-time status updates.*

Al-Kadi

<https://apps.apple.com/pk/app/stateview-homes/id1560143012>

- *Developed an iOS app for Arabic families to plan gatherings and celebrations.*
- *Implemented event scheduling, reminders, and guest coordination features.*
- *Used Swift, Firebase, and Realm for real-time data and performance optimization.*
- *Added Arabic-English localization to ensure accessibility for all users.*

Al-Eissa

<https://apps.apple.com/us/app/%D8%B4%D8%AC%D8%B1%D8%A9-%D8%A7%D9%84%D8%B9%D9%8A%D8%B3%D9%89/id1525172217>

- *Built an iOS app enabling families to share photos, messages, and updates in real time.*
- *Designed interactive feeds with push notifications and secure data storage.*
- *Utilized Swift, Core Data, and Firebase for smooth synchronization and scalability.*
- *Supported bilingual localization with intuitive UI for Arabic and English speakers.*

Al-Thunian

https://play.google.com/store/apps/details?id=com.ime.althunian&hl=en_US&gl=US

- *Created an iOS app for organizing personal and group events with smart reminders.*
- *Integrated calendar management, invitations, and attendance tracking features.*
- *Implemented MVVM architecture using Swift, Realm, and Cloud Firestore.*
- *Delivered a responsive UI with localization support for Arabic and English.*
